

# **Newsletter issue 1: April 2023**

Welcome to Atami SGG International Club and our first newsletter. We are a group of like-minded volunteers, Japanese and foreign, all living in Atami.

What are we about? We have three primary purposes:

- 1. To deepen communication with people from various countries living in Atami, based on the spirit of volunteerism and cooperate with each other to promote a more international city.
- 2. To provide assistance for new arrivals from abroad to navigate Japan life's essentials.
- 3. Help visitors from overseas to feel comfortable and promote Atami as a tourist city to the world.

# Kathy Matsunami, USA, living in Atami for 10 years

I have been lucky to call Atami home for 10 years. I am originally from the U.S. but have been living in Japan for longer. Yes, the big city has advantages, but the beauty and charm of Atami is what I like the most. The hills of Atami provide a spectacular views of Sagami Bay and Hatsushima and I understand why it was home to many famous Japanese writers. My favorite thing about Atami is the fireworks on a summer evening. Atami continues to change each year and I am looking forward to seeing this vibrancy continue.

### Yuri Ueno (call me Yuri!), Japanese, living in Atami, English-speaker

I am Yuri Ueno (call me Yuri!), a new member to SGG. I recently started a travel agency (Curious Travel) here in Atami. I am from Tokyo and still quite new to Atami, but I feel Atami (and Izu overall) is one of the most underestimated (or even unknown?!) tourist destinations for foreign visitors, despite its gorgeous landscape, great seafood, onsen, history, culture and more! Now travel is back, and I plan to operate various tours in English to help foreign visitors learn and enjoy Atami more. I look forward to meeting SGG members and talking about how we can help Atami to become a diamond, rather than a hidden (unknown?) gem.

#### **Atami Events in April**
